

Christopher Martin, MD, MSc, FRCPC

Dr. Christopher Martin is a Professor of Medicine and Occupational Medicine and Director of the Global Engagement Office for the Health Sciences Center at West Virginia University (WVU). He completed a Bachelor of Science from McGill University, a Medical Doctorate from Memorial University of Newfoundland, and a Master of Science in Environmental Health from the University of Alberta. He is a Fellow of the Royal College of Physicians of Canada in Occupational Medicine, a Fellow of the American College of Occupational and Environmental Medicine and is board certified in occupational medicine by the American Board of Preventive Medicine.

Dr. Martin is an active educator and scholar within the School of Medicine, nationally and internationally. He currently co-directs the first year MD course, *Public Health*, and serves as Program Director and Designated Institutional Official for the Occupational Medicine residency in the School of Public Health, one of only 23 programs in the United States. He has provided lectures and workshops in Occupational Medicine and Independent Medical Evaluations in the US, Canada, Bahrain and Kuwait. He is the Principal Investigator of a Training Project Grant from National Institute for Occupational Safety and Health (NIOSH) and a Preventive Medicine Residency Training Program Grant from the Health Resources and Services Administration.

He is currently a member of the National Board of Medical Examiners and serves on the International Oversight and Evidence-Based Medicine Item Review Committees. For the Accreditation Council for Graduate Medical Education, he served as a member of the Preventive Medicine Milestone Working Group.

Dr. Martin is an *ad hoc* member of the CDC's Occupational Safety & Health Study Section and several Special Emphasis Panels for NIOSH. He is a member of the Core Examination Committee of the American Board of Preventive Medicine and served a 7-year term as an examiner in Occupational Medicine for the Royal College of Physicians and Surgeons of Canada.

For the American College of Occupational and Environmental Medicine, he has served as President of the Residency Directors' Section, President of the TriState Occupational Medicine Association, a member of the OEM Competencies Committee, Core Curriculum Committee and the Council of Scientific Advisors.

Dr. Martin also maintains an active clinical practice and has served as a consultant to the US Vaccine Injury Compensation Program and U.S. Department of Justice Radiation Exposure Compensation Program as well as the Workers' Compensation Boards of West Virginia, Nova Scotia, Alberta, New Brunswick and the Northwest Territories. He has performed several hundred independent medical evaluations and has authored or co-authored five book chapters and over 25 peer-reviewed publications.
